# KEY TO COLUMN HEADINGS

<b>Community (CRS)</b>	The actual location of the building determines whether you refer to a City or unincorporated County listing. The number in parentheses refers to the <i>Community Rating System (CRS)</i> class for communities in CRS.
<b>Comm. No.</b>	Number unique to each community. Use to place coverage/order maps.
<b>FIRM Index Date</b>	Most recent <i>MAP INDEX</i> printed. Refer to the <i>MAP INDEX</i> to determine the most recent map panel. <i>FIRM</i> —Flood Insurance Rate Map.
<b>NSFHA</b>	Not in the <i>Special Flood Hazard Area</i> .
<b>NSFHA/C</b>	No map panels are printed. The entire community is in <i>Zone C</i> . Use <i>Zone C</i> rates.
<b>NSFHA/D</b>	No map panels are printed. Unstudied areas where flood hazards are undetermined, but flooding is possible. Use <i>Zone D</i> rates.
<b>See Co Map</b>	No separate panels are printed for this community. See County's <i>MAP INDEX</i> to identify specific County panels covering this community.
<b>CW</b>	<i>County Wide Mapping</i> —There is only one <i>MAP INDEX</i> and grid system for the entire county, <i>including all cities</i> . See County Wide <i>MAP INDEX</i> for location & latest panel.
<b>Original FIRM Date</b>	Compare the date in this column (for the <i>first Flood Insurance Rate Map</i> ) to a building's construction date for "Pre-FIRM/ Post-FIRM" determination.
<b>Regular Program Entry Date</b>	The date the community entered the <i>Regular Program</i> . If the entry reads <b>EP</b> — <i>Emergency Program</i> , see the limits on insurance available & how to rate.
<b>New</b>	Newly incorporated city. City is covered under the county ordinance.
<b>Not in the NFIP</b>	Flood insurance is not available.
<b>Sanctioned</b>	A <i>FIRM</i> map has been published showing <i>Special Flood Hazard Areas</i> , <i>but</i> the community has not joined the <i>National Flood Insurance Program (NFIP)</i> . Flood insurance is not available.
<b>Suspended</b>	The community has been removed from the <i>National Flood Insurance Program (NFIP)</i> for failure to meet development standards or its floodplain ordinance is not compliant. Flood insurance is not available.
<b>Department/Telephone</b>	Community dept. (and phone number) where the flood maps are kept.

# IMPORTANT NFIP GENERAL RULES

**NOTE:** This is a short extract. See the NFIP Flood Insurance Manual for all rules.

1. **PARTICIPATING COMMUNITIES:** Flood Insurance may be written only in those communities that have been designated as participating in the NFIP by the Federal Emergency Management Agency's (FEMA) Federal Insurance Administration.
2. **EMERGENCY PROGRAM:** The Emergency Program is an interim phase of the NFIP used when the community applies for entry into the NFIP.
3. **REGULAR PROGRAM:** A community enters the Regular Program typically when the detailed flood risk study has been completed or waived, and the community adopts floodplain management ordinances resulting in a Flood Insurance Rate Map (FIRM) being issued.
4. **PROBATION:** Probation is a temporary status, imposed by the FEMA Regional Director, that begins with formal notification to a community that its floodplain management program does not comply with NFIP criteria. (Probation has no effect on the continued availability of flood insurance.)
5. **SUSPENSION:** Flood insurance may not be sold or renewed in communities which are suspended from the NFIP.
6. **NON-PARTICIPATION:** A community is notified that it has flood prone areas when FIA publishes a Flood Hazard Boundary Map (FHB) or a Flood Insurance Rate Map (FIRM) showing the areas subject to severe flooding. The community then has one year in which to join the program. If the community chooses not to participate, flood insurance is not available.
7. **SEPARATE POLICY:** A separate policy is required for each building, except for a scheduled building policy.
8. **SINGLE BUILDING:** To qualify as a single building structure, and therefore subject to the single building limits, a building must be separate from other buildings by intervening clear space or solid, vertical, load-bearing division walls . . . the division between such solid, vertical, load-bearing walls may be insured as a separate building provided that:
  - a. All divisions are separately insured for amounts of flood insurance representative of each division's share of the total replacement value of the entire building;
  - b. The mortgagee is agreeable to the separate flood insurance coverage on each division in such buildings; and
  - c. Each flood insurance policy clearly describes and designates each particular building.
9. **ELIGIBLE BUILDING:** Insurance can only be written on walled and roofed buildings, which are principally above ground and are permanently affixed to sites. Also eligible are silos and grain storage buildings, and buildings in the course of construction.
10. **APPURtenant PRIVATE BUILDING EXTENSIONS:** Under the dwelling form, coverage will extend and be limited only to detached building garages or carports that service the insured dwelling described in the policy and which are located on the premises.
11. **EFFECTIVE DATE AND WAITING PERIOD:** A policy's effective date and the waiting period of a new policy are as follows:
  - **New policy (No Title Transfer)** - The effective date of a new policy shall be 12:01 AM, *local time* on the fifth calendar day after the application date and the presentation of premium.
  - **New policy (Transfer of Title)** - Any new coverage on property which is conveyed, shall be effective at the time the title to the property is transferred to the purchaser provided that the policy is applied for and the presentment of premium is made at or prior to transfer.
12. **MINIMUM PREMIUM:** The annual minimum premium shall be \$85.00 per policy, including the expense constant and fees.
13. **ASSIGNMENT:** A property owner's flood insurance policy may be assigned in writing to a purchaser of the insurance property upon transfer of title without the written consent of the NFIP.
14. **POLICY EXPIRATION:** The policy expires at the end of the policy term which is 12:01 AM, *local time* on the expiration date.
15. **BUILDING IN MORE THAN ONE ZONE:** Buildings located in more than one zone must be rated using the more hazardous zone.
16. **CONDOMINIUM MASTER POLICY:** To qualify for coverage under the Condominium Master Policy (CMP), a building must be in the Regular Program, contain at least 5 units, and have at least 3 floors. Only one building per policy is allowed.

The maximum amount of building coverage that can be purchased is the actual cash value of the building or the TOTAL (residential plus nonresidential) number of units in the building times \$250,000, WHICHEVER IS LESS. Replacement cost coverage is not available under the Condominium Master Policy.

To qualify for coverage under the CMP, a building must be in the Regular Program, contain at least 5 units, and at least 3 floors. Only one building per policy is allowed.

# OCCUPANCY TYPE – GENERAL RULES

When a mixture of commercial and residential, building units exist within a building, the following procedure should be used to determine the appropriate **OCCUPANCY** classification.

## 1. SINGLE-FAMILY DWELLINGS

A residential single family dwelling is permitted incidental office, professional private school, or studio occupancies, including a small service operation (fewer than three workers) if such incidental occupancies are limited to less than 50 percent of the building's total floor area.

## 2. TWO - FOUR FAMILY DWELLING

A residential building, excluding hotels and motels, with normal room rentals for less than six months duration and containing no more than four dwelling units, is permitted incidental occupancies such as office, professional, private school, or studio space if the total area of such occupancy is limited to less than 25 percent of the total floor area within the building. One commercial occupancy, not exceeding 1,200 square feet, is also permitted and may be in addition to the permitted incidental occupancy.

## 3. OTHER RESIDENTIAL

A residential building, excluding hotels and motels, with normal room rentals for less than six months duration and containing more than four dwelling units, is permitted incidental office, professional, private schools, or studio occupancies, provided that the total area of such occupancies is limited to less than 25 percent of the total flood area within the building.

## 4. NON-RESIDENTIAL BUILDING

A non-residential building includes, but is not limited to: small business concerns, churches, schools, nursing homes, farm building (including grain bins and silos) government buildings, mercantile structures, industrial plants, and warehouses.

NOTE: "SMALL BUSINESS" is defined as follows - A business, together with its affiliates that does not have a net worth in excess of \$6 million and does not have an average net income after federal income taxes (excluding any carryover losses) for the preceding two years in excess of \$2 million.
